SUBJECT INDEX

VOLUME 45, 1983

Accelerators
  Muon fluence measurements at Fermilab 651
  X-ray attenuation in concrete and steel from Clinac-20 969
Accidental Radiation Exposure
  Dosimetry by ESR spectroscopy following 961
  1976 Hanford americium exposure incident 837-937
Actinides
  Radiobiology in man (see Vol. 44, Supplement No. 1 index)
Alarm Systems
  Description of ultrasonic intrusion, for radiation areas 778
Americium-241
  Exposure incident at Hanford, overview and specifics of, 1976 837-937
  Retention in rat skeletons 708

Barium-140
  Biological elimination rates of mallards 745
Birds
  Radionuclide elimination rate of mallards contaminated at waste disposal site 745
Buildings
  Radiation and radionuclides in, review 303
  Radon and radon daughter measurements in solar 413
  Radon and daughter product concentrations and associated risks 277
  Radon and daughter product equilibrium factor 453
  Radon concentrations and infiltration rates in conventional and energy-efficient 401
  Radon daughter concentrations estimated from single-sample surveys 435
  Radon daughter concentration in, effect of plateout, air motion, and dust removal on 463
  Radon decay product behavior in, model for 471
  Radon levels in northeastern New York, energy-efficiency effects on 407
  Radon progeny concentrations in Florida phosphate mining region 389
  Radon progeny plateout velocities in 481
  Radon-222 and progeny measurements in East Tennessee residences 81
  Radon-222 concentrations in, automated system for measuring 525
  Radon-222 concentrations in New Jersey, New York and Pennsylvania 397
  Radon-222 concentrations in residences, measurement of time-integrated 539
  Radon-222 daughter products in, electric field effects on 487
Building Materials
  Radioactivity in Italy 385
  Radionuclide contents and radon emanation rates in U.S. 363
  Radon exhalation rates 369
  Radon-222 diffusion in, time-dependent method for characterizing 377
  Radon-222 exhalation rates, method for measuring 550
  Search for, as source of elevated radiation dose 349

Cadmium
Health effects of waste 1007
Calcium-DTPA
Hematologic effects, 1976 Hanford americium exposure incident 923
Medical management and chelation therapy, 1976 Hanford americium exposure incident 855
Organ burden and radiation dose estimates, 1976 Hanford americium exposure incident 911
Urinary excretion of trace metals during treatments, 1976 Hanford americium exposure incident 937
Calcium-45
Retention in rat skeletons 708
Canada
Radionuclide levels in fish near Saskatchewan uranium mine and mill 67
Cancer (see Neoplasms)
Carcinogenesis
Potential for, radiation risk assessed in terms of 798
Vitamin C action on rat pulmonary 794
Cesium-134
Biological elimination rate of mallards 745
Cesium-137
Behavior in environment, establishment of field plot to study 1050
Biological elimination rate of mallards 745
Concentrations in soil and biota of fallout areas 643
Deposition in Japanese temporary residents of England 162
Gamma shielding factors for vehicles from deposition on structures and ground surfaces 1039
Whole-body levels in man 167
Chelation Therapy
Decontamination and treatment facility, 1976 Hanford americium exposure incident 883
Hematologic effects, 1976 Hanford americium exposure incident 923
Medical management and, 1976 Hanford americium exposure incident 855
Organ burden and radiation dose estimates, 1976 Hanford americium exposure incident 911
Overview and perspective, 1976 Hanford americium exposure incident 837
Urinary excretion of trace metals during treatments, 1976 Hanford americium exposure incident 937
Chromium-51
Biological elimination rate of mallards 745
Cobalt-58
Biological elimination rate of mallards 745
Cobalt-60
Biological elimination rate of mallards 745
Curium-244
Retention in rat skeletons 708

Decontamination Facilities
1976 Hanford americium exposure incident: accident description 847

1976 Hanford americium exposure incident: external decontamination procedures 873
1976 Hanford americium exposure incident: decontamination and treatment facility 883
Dielectric Tract Detectors
Response characteristics for radon, method for calculating 544
Use for radon measurements indoors 425
Dogs
Plutonium dioxide inhalation and retention in beagles 39
DTPA
Decontamination and treatment facility, 1976 Hanford americium exposure incident 883
In vivo measurements, 1976 Hanford americium exposure incident 893
Organ burden and radiation dose estimates, 1976 Hanford americium exposure incident 911
Overview and perspective, 1976 Hanford americium exposure incident 837

Ecosystems (see also Plants, Soils, Water)
Cesium-137 and strontium-90 content in fallout areas 643
Electromagnetic Radiation
Effect of microwave irradiation on intestinal myoelectrical activity in rats 775
Exposure levels of RF, near hyperthermia device 101
Health hazards of low-frequency emissions of video display terminals 713
Measurement of RF emissions from video display terminals 772
Population exposure limit for RF 109
Electrons
Dose-rate conversion factors for external exposure to 665

Fish
Radionuclide levels near uranium mine and mill 67
Florida
Radon daughter concentrations near phosphate deposits 432
Radon progeny concentrations indoors in phosphate mining region 389
Food Chains
Evaluation of seaweed critical pathway for deep-ocean radioactive waste disposal 139
Food Products
Caloric contents of, for environmental assessment models 786
Uranium assay in milk 1005, 1006

Gamma Radiation
Dose-rate conversion factors for external exposure to 665
Dosimetry by ESR spectroscopy following accident 961
Shielding factors for vehicles from activity on structures and ground surfaces 1039
Source of nearly mono-energetic 6-7 MeV 127
Gastrointestinal Tract
Myoelectrical activity in rat intestine, incidence of microwave irradiation on 775

Geiger-Mueller Detectors
Sensitivity for neutrons at 0.5 to 8 MeV 659

Human Populations (see also Man)
Behavioral responses and mental health of, effect of Three Mile Island accident on 579
Cancer incidence near nuclear installations 809
Genetically significant dose from diagnostic x-ray procedures in Iran 21
Health hazards of nuclear power 575
Radiofrequency radiation exposure limit 109
Radon daughter inhalation exposures in U.K. 323

ICRP
Comments on Publication 32 805
Iodine
Use of stable, for thyroid protection 179
Iodine-125
Release from seeds implanted in prostate 593
Iodine-129
Concentration in mule deer thyroids in Rocky Mountains 31
Uptake and effects of lifetime feeding in rats 61
Iodine-131
Biological elimination rates of mallards 745
Environmental half-time for, deposited on vegetation 731
Iran
Genetically significant dose from diagnostic x-ray procedures 21
Italy
Radioactivity of building materials in 385

Lead
Levels in fish near uranium mine and mill 67

Maine
Cancer correlation with environmental radon 339
Radon levels in dwellings in 428
Man (see also Human Populations)
Cadmium effects on health 1007
Cesium-137 deposition in Japanese temporary residents of England 162
Cesium-137, whole-body levels in 167
Diet caloric content for environmental assessment models 786
DNA repair in lymphocytes following low-level UV occupational exposure 1
Health hazards of low-frequency electromagnetic radiation 713
Iodine-125 release from seeds implanted in prostate 593
Radiation dose to infants from technetium-99m pertechnetate in nursing mothers 149
Radiation effects on, discounting in assessment of future 687
Radiobiology of radium and the actinides in man (see Vol. 44, Supplement No. 1 index)
Radionuclide content in bone samples 705

Thallium-202 contaminate clearance following ^{201}Tl injection 999
Muons
Fluence measurements at Fermilab 651

Neoplasms
Correlation with environmental radon in Maine 339
Incidence in people living near nuclear installations 809
Incidence of melanomas at Los Alamos National Laboratory 587
Radiological risk assessment and low-dose controversy 144
Risks for lung cancer from radon daughters 169,171
Radiogenesis of, discounting in assessment of future 687
Neutrons
Detection at 0.5 to 8 MeV, sensitivity of G-M counter for 659
Dose equivalent from thermal up to 10 keV, measurement of 181
Dosimetry of, response of area albedo TLD monitor for 158
Fluence spectra of, plotting 817
Nevada
Cesium-137 and strontium-90 content in soil and biota of fallout areas 643
New Jersey
Radon-222 concentrations in buildings in 397
New York
Radon levels in dwellings in, energy-efficiency effects on 407
Radon-222 concentrations in buildings in 97
Nuclear Facilities (see also Power Reactors, Research Reactors)
Americium exposure incident at Hanford, overview and specifics of, 1976 837-937
Cancer incidence in people living near 809
Melanoma case-control study at Los Alamos National Laboratory 587

Occupational Exposure
Correlation with melanomas at Los Alamos National Laboratory 587
DNA repair in lymphocytes following low-level UV 1
Dose determination for fluoroscopic x-ray facilities 975
Dose assignments to unbadged individual, upper bounds for 723
Dosimetry by ESR spectroscopy following accident 961
Levels of radiofrequency radiation near hyperthermia device 101
Overviews and specifics of 1976 Hanford americium incident 837-937
Radon daughter risks to miners and others 169,171
Radon progeny inhalation, comments on ICRP Publication 32 on 805
Risk projections, demographic model for site specific 9
Thorium and uranium levels in uranium mill crushermen 617

Pennsylvania
Radon-222 concentrations in buildings in 397
Plants
Radionuclide deposition on, environmental half-time for 731
Tritiated water vapor exchange in sunflowers 757

Plutonium
Activity densities of airborne and surface soils 1047
Plutonium-238
Content in human bone samples 705
Plutonium-239
Content in human bone samples 705
Retention in rat skeletons 708
Plutonium-240
Content in human bone samples 705
Plutonium Oxides
Dissolution of respirable aerosols of mixed-oxide nuclear fuels 1023
Retention of inhaled $^{238}PuO_2$ in beagles 39
Poland
Radon and progeny concentrations in spas in 421
Potassium-40
Content in building materials used in U.S. 363
Power Reactors
Accident at Three Mile Island, effects on population mental health and behavioral responses 579
Aerosol characterization from auxiliary building at Three Mile Island 981
Health hazards of nuclear power 575
Psychological Effects
Effect of Three Mile Island Accident on Behavioral Responses and mental health of the general population and nuclear workers 579
Psychological aspcts, 1976 Hanford americium exposure incident 867

Radiation (see also Electrmagnetic Radiation, Electrons, Gamma Radiation, Muons, Neutrons, X Radiation)
Mobile sources of, contaminated cockroaches 1053
Radiation Detectors (see also Dieelectric Tract Detectors, Geiger-Mueller Detectors, Scintillation Detectors, Thermoluminescence Dosimeters)
Radiation Dose (see also Occupational Exposure)
Assessment to infants from technetium-99m pertechnetate in nursing mothers 149
Correlation with radiographic image contrast in urology 599
Definition of trivial levels 180
Determination by ESR spectroscopy following radiation accident 961
Estimation of genetically significant, from diagnostic x-ray procedures in Iran 21
Levels around existing rooms of brachytherapy patients 607
Responses to lognormally distributed continuous low, simulated 699
Risk assessment and low-dose controversy 144
Risk assessment in terms of carcinogenesis potential 798
Radiation Protection
Alarm system, ultrasonic intrusion 778
Iodine use for thyroid protection, stable 179

Radiation Units
Plural forms of, regular 818,819,820
Standardization of, plea for international 1053
Radioactive Wastes
Disposal of, seaweed critical pathway in deep-ocean 139
Radionuclides
Environmental half-time for, deposited on vegetation 731
Radium
Radiobiology in man (see Vol. 44, Supplement No. 1 index)
Radium-226
Concentrations in surface soil in U.S. 631
Levels in fish near uranium mine and mill 67
Retention in rat skeletons 708
Radon
Concentration measurements indoors using track etch method 425
Concentrations indoors and outdoors, background atmospheric 289
Concentrations in dwellings in Maine and Texas 428
Concentrations in dwellings in New York, energy-efficiency effects on 407
Concentrations in Polish spas 421
Concentrations in solar buildings 413
Emanation rates in building materials used in U.S. 363
Exhalation rates for porous materials 369
Monitoring with charcoal adsorption, theory and practice of 501
Radon-220
Exhalation of, calibration of counting apparatus for determination of 801
Radon-222
Concentration levels in Maine, correlation with cancer 339
Concentration measurements, intercomparison with daughter product measurements 553
Concentration relative to daughter products in buildings, equilibrium factor for 453
Concentrations and doses in buildings 303
Concentrations and infiltration rates in conventional and energy-efficient houses 401
Concentrations in air, measurement of low 559
Concentrations in ambient air, solvent extraction technique for measuring 493
Concentrations in building materials a source of elevated radiation dose 349
Concentrations in buildings and associated risks 277
Concentrations in buildings in New Jersey, New York and Pennsylvania 397
Concentrations in East Tennessee residences 81
Concentrations in houses, automated system for measuring 525
Concentrations in municipal water supplies in Central U.S. 991
Concentrations in residences, measurement of time-integrated 539
Detection with daughter products, intercalibration of systems for 550
Detection of, response characteristics of dielectric track detectors for 544

Diffusion in concrete, time-dependent method for characterizing 377
Exhalation rates for building materials, method for measuring 550
Radon Progeny
Alpha energy concentration of, spectroscopic technique for determining potential 509
Behavior indoors, model for 471
Concentration equilibrium factor in buildings 453
Concentration measurements indoors using track etch method 425
Concentration measurements, intercomparison with radon-222 measurements 553
Concentrations and doses in buildings 303
Concentrations in building materials as source of elevated radiation dose 349
Concentrations in building materials in Italy 385
Concentrations in buildings and associated risks 277
Concentrations indoors in Florida phosphate mining region 389
Concentrations in houses estimated from single-sample surveys 435
Concentrations in Polish spas 421
Concentrations in residences, effect of plateout, air motion, and dust removal on 463
Concentrations in solar buildings 413
Concentrations near Florida phosphate deposits 432
Deposition velocities estimated from field measurements 481
Detection with radon-222 intercalibration of systems for 550
Dose and carcinogenic risk to respiratory tract 331
Electric field effects on, indoors 487
Inhalation exposures in U.K. 323
Inhalation of, comments on ICRP Publication 32 on 805
Plateout measurements 439
Plateout prediction model 445
Relative humidity effects on charged fraction of radon and thoron decay products 152
Risk for lung cancer to miners and others 169,171
Research Reactors
Dosimetry for health physics research reactor, reference 1003
Respiratory System
Carcinogenesis in rat lung from inhaled $^{239}PuO_2$, action of vitamin C on 794
Radiation exposure and carcinogenic risk from inhaled radon daughters 331
Rodents
Carcinogenesis in rat lung from inhaled $^{239}PuO_2$, action of vitamin C on 794
Intestinal myoelectrical activity in rats, incidence of microwave irradiation on 775
Iodine-129 uptake and effects of lifetime feeding in rats 61
Radiation effects on rat embryos, pre-implantation low-dose 993
Radionuclide retention in rat skeletons 708
Ruminants
Iodine-129 content in mule deer thyroids in Rocky Mountains 31

Scandium-46
Retention in rat skeletons 708
Scintillation Detectors
Calibration of collection and counting apparatus for exhaled thoron determination 801
Selenium-75
Biological elimination rate of mallards 745
Shielding
Requirements of existing rooms for brachytherapy patients 607
Shielding Materials
X-ray attenuation in concrete and steel, for Clinac-20 969
Skeleton
Radionuclide content in human bone samples 705
Radionuclide retention in rat 708
Sodium-22
Retention in rat skeletons 708
Soils (see also Ecosystems)
Plutonium activity densities of airborne and surface 1047
Radionuclide concentrations in U.S. 631
Strontium-85
Retention in rat skeletons 708
Strontium-90
Concentrations in soil and biota of fallout areas 643
Content in human bone samples 705

Technetium-99m
Radiation dose to infants following pertechnetate administration to nursing mothers 149
Tennessee
Radon-222 and progeny measurements in residences 81
Texas
Radon levels in dwellings in 528

Thallium-201
Injection of, clearance of ^{202}Tl contaminate following intravenous 999
Thallium-202
Clearance of contaminate, following ^{201}Tl intravenous injection 999
Thermoluminescence Dosimeters
Interpretation of environmental data 173
Performance of BaS(Cu,Bi) for x rays 1001
Response of area albedo neutron dosimeter 158
Sterilization of TLD finger monitors 157
Three Mile Island
Effect of accident on behavioral responses and mental health of the general population and nuclear workers 579
Thorium
Content in building materials used in U.S. 363
Thorium-230
Concentration in excreta of uranium mill crushermen 617

Thorium-232
Concentrations in surface soil in U.S. 631
Thyroid Blocking
Iodine use for thyroid protection, stable 179
Tritium
Beta particle RBE in relation to dose rate 789
Dissolution of tritiated glass microballoon fragments 791
Exchange of tritiated water vapor in sunflowers 757

United Kingdom
Cesium-137 deposition in Japanese temporary residents in 162
Inhalation exposures in U.K. 323
United States
Building materials, racionuclide contents and radon emanation rates in U.S. 363
Radon-222 concentrations in municipal water supplies in Central U.S. 991
Radon-222 emanation rates in building materials used in U.S. 363
Potassium-40, content in building materials used in U.S. 363
Radionuclide concentrations in U.S. 631
Radium-226, concentrations in surface soil in U.S. 631
Thorium, content in building materials used in U.S. 363
Thorium-232, concentrations in surface soil in U.S. 631
Uranium, occurrence in drinking water in U.S. 89
Uranium-238, concentrations in surface soil in U.S. 631
Water, radon-222 in municipal water supplies in Central U.S. 991
Water, uranium occurrence in drinking water in U.S. 89
Uranium
Assay in milk 1005,1006
Content in building materials used in U.S. 363
Levels in fish near uranium mine and mill 67
Occurrence in drinking water in U.S. 89
Uranium-234
Concentration in excreta of uranium mill crushermen 617
Uranium-238
Concentration in excreta of uranium mill crushermen 617
Concentrations in surface soil in U.S. 631
Uranium Oxides
Dissolution of respirable aerosols of mixed-oxide nuclear fuels, in vitro 1023
Utah
Cesium-137 and strontium-90 content in soil and biota of fallout areas 643

Video Display Terminals
Measurement of RF emissions from 772
Health hazards of low-frequency emissions of 713

Water
Radon-222 in municipal water supplies in Central U.S. 991
Uranium occurrence in drinking water in U.S. 89

X Radiation
Attenuation in concrete and steel from Clinac-20 969
Dose-rate conversion factors for external exposure to 665
Diagnostic exposure and radiographic image contrast in urology 599
Dosimetry of, new TLD phosphor for 1001
Effects of pre-implantation low-dose, on rat embryos 993
Genetically significant dose from diagnostic, in Iran 21
X-Ray Equipment
Dose to personnel from fluoroscopic 975
Exposure rate calculations for Isomatrix therapy machine 783
Generator linearity of diagnostic 815,816
Reciprocity law failure for film-screen combination 780

Zinc-DTPA
Hematologic effects, 1976 Hanford americium exposure incident 923
Medical management and chelation therapy, 1976 Hanford americium exposure incident 855
Organ burden and radiation dose estimates, 1976 Hanford americium exposure incident 911
Overview and perspective, 1976 Hanford americium exposure incident 837
Urinary excretion of trace metals during treatments, 1976 Hanford americium exposure incident 937
Zinc-65
Biological elimination rate of mallards 745
Retention in rat skeletons 708
